Profile Summary

Frontend Developer with 1+ year of professional experience in WordPress website management and hands-on experience building responsive web applications using React.js. Skilled in developing reusable UI components, integrating REST APIs, and implementing CRUD functionality. Passionate about creating scalable, user-centric applications with clean, maintainable code and modern frontend best practices.

Skills

- **Languages:** Java, JavaScript, HTML, CSS
- **Frameworks/Libraries:** React.js, Node.js, Express.js, Redux, Tailwind CSS
- **Tools:** Postman, Git, GitHub,
- **Databases & Deployment:** MongoDB, Vercel, Netlify

Projects

Appointment Booking System

[Live Demo](#) [GitHub](#)

- Developed a responsive **doctor appointment booking application** using **React.js** and **Tailwind CSS**, delivering a clean and intuitive user interface across devices.
- **Implemented** doctor search, filtering, and **CRUD functionality** to streamline appointment scheduling and patient data management.
- **Integrated RESTful APIs** for seamless data fetching and management, ensuring efficient client-server communication and improved application performance.

Obys Agency

[Live Demo](#) [GitHub](#)

- Developed a fully responsive **Obys-inspired landing page** using **HTML**, **CSS**, and **JavaScript**, ensuring seamless performance across desktop and mobile devices.
- **Implemented** smooth **GSAP animations** with interactive scrolling for an engaging UI.
- **Designed** a modern, pixel-perfect UI with smooth transitions and optimized frontend performance, closely replicating the original website's look and feel.

Work Experience

Apni Pathshala

May 2025 – Present

(Website Manager)

- Managed and published **4,000+** articles using **WordPress**, ensuring accurate formatting, timely updates, and a consistent user experience.
- Performed **basic on-page SEO optimization**, including meta titles, meta descriptions, headings, image optimization, internal linking, and content formatting to improve search visibility.
- Collaborated with the content and design teams to publish **20–30 articles daily** while maintaining content quality and website performance.
- Collaborated with cross-functional teams to implement minor frontend improvements using HTML, CSS, and JavaScript while ensuring consistent website performance.
